Objective

Bilingual software developer and problem-solver with an eye for customer satisfaction. Committed to effective communication and peer mentorship. Looking for a challenging role where I can contribute my expertise and engage in meaningful collaboration towards collective success.

Skills

- Deploying webservers on AWS cloud infrastructure with EC2 instances.
- Leverage React and TypeScript to deliver intuitive user interfaces for business apps.
- Building HTML/CSS/JS websites that communicate with third-party REST APIs.
- Python scripting microcontrollers for home automations or web scraping.
- Provisioning virtual machines in VMware ESXi and Microsoft Hyper-V.
- Containerize fullstack monolith apps into microservices with Docker Engine.
- Comfortable with Linux CLI, headless distros & remote access protocols.

Experience

April 2022 - August 2023

Golden State Assembly, Fremont CA – IT Specialist

- Assisting 80+ employees with troubleshooting network, hardware and M365 issues.
- Implemented Git version control to existing codebases w/ Azure DevOps.
- Automated software deployment cycles with Azure Pipeline Agents.
- Documenting developer environments of projects for onboarding.
- Work with cross-functional departments to plan & design CRM apps for new opportunities.
- Storage admin; Automated cloud backups, made policies & migrated data to iSCSI SAN.
- Rack-n-stack Cisco networking hardware. Configure subnets, VLANs, VPN and firewalls.

Education

Chabot College, Hayward CA

Computer science major. Object-oriented programming with C++

Mt. Eden High School, Hayward CA

AP Computer Science; Created JavaScript mobile apps, studied TCP/IP networking.
